

Documentation of Google Business Profile

Date: 28-10-2023

Overview:

Google My Business is a valuable tool for local businesses looking to improve their online visibility and connect with potential customers. By keeping their listing up to date and engaging with customers, businesses can enhance their online reputation and attract more foot traffic or online traffic.

Features:

- Upload images and videos to showcase your products, services, and the overall ambiance of your business.
- Enable messaging to allow customers to contact your business directly through the platform.
- Access data and insights about how customers are interacting with your business listing.
- Highlight specific products and services you offer, complete with descriptions and prices.
- Google My Business can help you create a simple website based on the information in your listing.
- Gain insights into how users find and interact with your listing, allowing you to make data-driven decisions to improve your online presence.

Requirements:

- Google account
- Business location
- Business category
- Business name

Usage:

1. Provide accurate and up-to-date contact information, including your business address, phone number, and website. This makes it easy for potential customers to reach you.
2. Display your business hours, including any special hours for holidays or events. This helps customers know when you're open.
3. Upload high-quality images and videos of your business, products, services, and team. Visual content can help customers get a better sense of what you offer.

4. Create posts to share updates, events, promotions, and news about your business. This keeps your audience informed and engaged.
5. Highlight specific products or services you offer, complete with descriptions and prices.
6. If you have multiple business locations, you can manage and update information for each branch within a single Google My Business account.

Troubleshooting:

- If the website is not working properly, try restarting your device and checking your internet connection.
- If you are still having problems, please contact the website developer for support.
